Integrated Management System Policy Statement

Power System Services is committed to the continual improvement of the integrated management system and the enhancement of our health, safety, environmental and quality performance; this includes our commitment to fulfil all of our compliance obligations. Power System Services will establish, implement, maintain and improve our management systems in order to create a safe working environment that focuses on an overarching quality philosophy and prevention of pollution, reduction of waste and minimise the consumption of resources. Our management systems include the processes which are needed and their interactions in accordance with the requirements of ISO 9001:2015, ISO 14001:2015, OHSAS 18001:2007. The IMS is also committed to the prevention of injury and ill health.

The overall company objectives is to ensure that our products are manufactured maintaining standards of excellence for quality, environment and health and safety so that our customers and interested parties are provided with services and service levels that satisfy their requirements. In order to maintain these standards of excellence, objectives will be set for quality, environment and health and safety, against which organisational, functional and individual performances will be monitored.

We will work with suppliers and subcontractors to ensure materials and services used conform to defined requirements and quality levels. Consistency is vital in the materials and services used to manufacture quality products.

We consider internal communications to be essential to the effectiveness of the organisation. Appropriate channels of communication are established to ensure that all personnel are made aware of the management systems policy, objectives and the effectiveness of the IMS. We encourage all personnel to actively participate to ensure that communication is a two way process. We will work closely with our customers and stakeholder during external communications in order to achieve a mutual understanding, commercial advantage and benefit.

Each member of staff is an integral part of the management system chain and their involvement is crucial in ensuring that we satisfy specified requirements. We will provide staff with information instruction and training to ensure that they are able to perform current and future tasks to the best of their abilities.

We will establish, implement and maintain high standards and targets in order to improve performance against our core objectives that cover our operational parameters for quality, environment and health and safety. The quest for ever improving the IMS is essential to the company's commitment to excellence and long term success. We will continually improve effectiveness and efficiency by monitoring our objectives through internal; auditing, analysing data, reviewing performance and implementing corrective and preventative actions.

This Policy Statement provides the framework for setting and reviewing objectives, targets and will be reviewed during management review meetings.

This Policy will be communicated to employees, contractors, suppliers and will be made available to interested parties upon request.

P. Beauchamp:
Managing Director
